Who We Are

The Kisaq Construction Division focuses on vertical construction for federal, institutional and commercial clients nationwide. Typical projects include educational, medical, office, recreational, industrial, and similar structures.

Kisaq is certified as a small, disadvantaged business under the Small Business Administration's 8(a) program, and is a 100 percent minority-owned enterprise.

Construction

Lasting structures are built on firm foundations. At Kisaq, we integrate this principle into our business philosophy. By placing a major focus on cost, scheduling, and management, we keep deliverable dates reliable and forecasts accurate.

Design/Build

Kisaq teams with highly-qualified architecture and engineering firms to provide our clients seamless, integrated and cost-effective design/build services. This team approach provides expanded insight into value engineering and cost efficiencies.

Construction Management

Our "best industry practices" include managing, monitoring and mitigating processes and issues at each phase of construction. We also excel at administering government contracts and complying with Federal Acquisition Regulations (FAR).

Why Choose Us

- Experienced construction team
- Delivery of quality projects on-time and within budget
- Commitment to safety
- Extensive Federal government contracting experience
- Thorough understanding of Federal Acquisition Regulations (FAR)
- 100% Alaska Native-owned by Akmaaq, a NANA company

CAPABILITIES

Kisaq ~

- has a professional management team with more than 200 years of combined experience in general contracting, design/build and construction management.
- uses industry software to estimate projects, schedule teams, track project progression and monitor actual vs. budgeted costs.
- provides significant customer satisfaction with its reputation for being on-time and on-budget.
- has a superior reputation for safety. We have an in-house Safety Director, a written and documented safety process and a regular safety training program.
