Who We Are

NANAPacific

NANA Pacific is a full-service project management and consulting company specializing in innovative solutions to public and private clients for federal and commercial projects around the world. Focusing on technology, emergency response, deployable communication, mission operations and project management, NANA Pacific provides results that create continued success for our shareholders and the communities we impact.

All of our capabilities are embedded in a standard and inherent 24/7 operational concept that has been proven continuously since our inception, but most importantly, to 100 percent satisfaction of the customer. We have the ability to thrust our capabilities forward in support of any operation and to do so with minimal or no prior notice.

Ownership & Action

Our professional team of personnel has successfully managed federal government contracts. We have exceeded performance standards by completing projects with special awareness to quality control and safety – so much so that we have received many awards and accolades for our service.

Supported by Akmaa, NANA Pacific is committed to ensuring each contracted project is delivered on-time and within budget. NANA Pacific has operational divisions in Anchorage, Alaska; Colorado Springs, Colorado; Arlington, Virginia; and Lexington, Kentucky.

Past & Present Performance

As a result of long-term strategic operational partnerships with several entities and agencies, NANA Pacific has played a critical role in the mission of Domestic Security and Natural Disaster Relief. NANA Pacific provides the initial fielding, daily sustainment, training and annual evaluation of the National Guard Bureau (NGB) Homeland Security Office's deployed 57 Weapons of Mass Destruction Civil Support Teams (WMD-CST); the NGB Homeland Security Office's deployed 17 Chemical, Biological, Radiological, Nuclear, Enhanced Response Forces (CERF); and the NGB Fatalities Search and Recovery Teams (FSRT), just to name a few. Among our many missions, our team has provided the following:

- Sustained FEMA support in the aftermath of Hurricane Katrina.
- Support for the G8 and G20 conferences, Olympics, Presidential Inaugurations, 9/11, Operation Iraqi Freedom, etc.
- Operational support involving the tsunami disaster in Samoa.

Contracting Advantages

- 100% Alaska Native-owned by Akmaa, a NANA company
- Certified under the U.S. Small Business Administration 8(a) Program
- Abundant resources to draw upon as a NANA company and part of the Akmaa family of companies
- NANA Pacific is a 100 percent minority-owned enterprise
- Qualified for the Buy Indian Act: An Indian incentive program that provides a 5 percent bonus payment
- Eligible for the alpha contracting process by which an Indian Tribe or Native Corporation can work together with our clients for directed award contracts
- Personnel experienced in homeland security, operations, communications, logistics and contracting
- Delivery of quality projects ontime and within budget
- More than 50 percent of personnel hold security clearances
- Extensive Federal Government contracting experience
- Federal Acquisition Regulation expertise
- Staff personnel are certified in numerous areas related to domestic security, i.e., handling and disposal of hazardous material, unparalleled flexibility and response in transportation and emergency mobilization
- Staff includes personnel with a PhD degree in fields including Chemistry, Bio-Chemistry, Biology, Bio-Physics and Nuclear Physics

Communications

NANA Pacific provides operations, maintenance and upgrades for emergency deployable communication systems in support of national emergencies and exercises for major events. These systems are a reliable and robust communications infrastructure of quickly-erected communication towers used by the military, National Guard, FEMA and other first responders to disasters such as hurricanes, floods, wildfires, and terrorist attacks.

Professional Management

NANA Pacific's technical and professional operations provide personnel, equipment, tools, materials and supervision as a part of its many customized client services. Our knowledge of critical infrastructure protection and military command provides for smooth operations and organization of requisitions, receipts, storage, issuance and accounting of military equipment.

We manage operations for time-sensitive military communications. We develop and implement the procedures that are the operational framework to directly assist in collecting, compiling, sorting, analyzing and disseminating critical information.
